Ron,

I was tasked with potentially doing some pre-CERCLIS screens on some former lead and battery facilities from a list handed down from headquarters. On the list there are 13 facilities in region 7. Of the 13, eight are in St. Louis (Jim Silver is taking the lead on these). Of the five outside of St. Louis, here is my status report.

Kansas City Smelting & Refining Company 2223 Guinotte Ave Kansas City, MO (I have found but have not initiated pre-CERCLIS screen)

Price Metal & Refining Co. Guinotte & Flora Kansas City, MO
(Does not exist; it was a part of Kansas City Smelting & Refining Company)

Shostak Metal Corp. 303 Broadway Kansas City, MO
(This property is located on a main street in the downtown area and has been fully paved. It is now a business called Web Productions Inc.)

The Northwestern Metal Co 900 T Street Lincoln, NE (This property sits under I-180)

Western Smelting & Refining Co. 702 Douglas Omaha, NE
(This property is believed to be associated with ASARCO which is a PRP for an ongoing removal.)
